

AI-Powered Texting to Boost Bookings & Make Your Front-Desk Happy

Messaging Beats Phone Calls

Customers won't answer phone calls anymore while 90% of texts are read within 3min.* Presence AI leverages the power of texts to dramatically save time. Customers get incredible convenience to book appointments, reschedule, or ask questions with just a few texts.

High Performance Reliability

Within days of activation, salons rely on Presence AI 24/7. Phone calls and emails become messages. Response rates are 79% on average; far better than the typical email open rates of 20%. On average businesses save 3 hours of work every single day.

Fully Integrated with SalonBiz

Presence AI has been deeply integrated with SalonBiz. Customers, services, and staff are continuously synced. Bookings, changes, and confirmations are automatically saved from text conversations to SalonBiz.

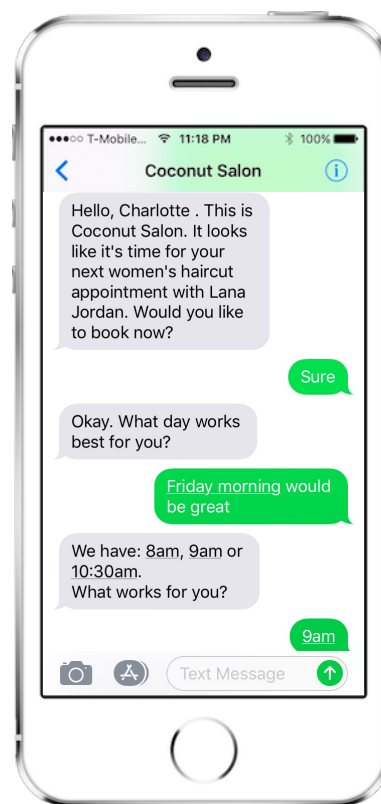

Easy to Use and Quick to Setup

Presence AI setup is a breeze. In a few steps, Presence AI syncs with SalonBiz and is ready to go. Convert a landline number to a textable number or create a new textable number, and you're ready to go.

Automated and Personal

Let the AI do its job or take control at any time to message customers directly.

Rebooking Reminders

Presence AI automatically texts your customers when it's time for their next appointment. With just a few texts your customers are regularly rebooked.
